Main Extension Policy for Emergency Flows May 2021

When an entity wants the District to provide capacity for emergency flow, that entity will be required to pay for the minimum System upgrade necessary to provide this flow...even if emergency utilization of this flow affects flow to downstream customers. If the Board decides to upgrade the System beyond these minimum requirements, the cost of the additional upgrade will be paid with District funds. This Policy is for existing District Members, not for new developments or developers.
